Comments:

I strongly object to any development of any kind in the Tongas National Forest. This pristine environment is not only an irreplaceable treasure, it is one of the main drivers of the local economy as it attracts huge numbers of tourists each year who visit to enjoy its rare beauty. The Tongas must be preserved for the benefit of all for generations to come, and not desecrated to line the pockets of the avaricious, shortsighted few. Thank you.

D. R. Bundy
