Comments:

I am an outdoor recreation enthusiast writing to express my interest in continuing to protect the Tongass National Forest and its backcountry and roadless areas from unnecessary logging and development.

The Tongass has tremendous value for outdoor recreation in the region, and also provides clean water, clean air, and wildlife habitat, all of which are foundational to the economic and ecological health of Southeast Alaska. Road building, logging, and development should continue to be prohibited in the Tongass's roadless areas through upholding the Roadless Rule.

The Roadless Rule was created after a lot of public outreach. It's a popular and sensible approach to land management.
