Comments:

I am writing to request the No Action Alternative to maintain the Tongass National Forest within the 2001 Roadless Rule. I had the privilege to spend time in the Tongass, and marveled at its exceptional richness of plant and animal life. I want all of the public, today and in the future, to have the same opportunity I had. I also believe our national forests must be managed for watershed and wildlife. The unprecedented challenges we face of severely compromised climate and habitat makes it all the more essential we keep the current provisions in place. The Tongass is our amazon, and we must treat it with the care and respect it deserves.
