Dear Sir/Madam

Please do not exempt the Tongass National Forest from the 2001 Roadless Area Conservation Rule. These trees are the lungs of our planet and as such MUST be kept intact and operational to continue to help our planet survive.

Please consider your children and their children who would inherit a world devoid of such a resource. Please do not let the short term gain overshadow the future our world would retain from leaving these forests intact for ALL living beings.

Please do the right thing for humanity and do not exempt the Tongass National Forest from the 2001 Roadless Area Conservation Rule.

Respectfully,

Vito Zingarelli
