Comments:

Don't destroy America's largest national forest

As a landscape architect and ecologist, I work with the natural world as part of my profession and know it is irreplaceable.

As an avid hiker, birder, and nature lover, I frequent National Parks, Monuments, Wildlands, and Forests as often as I can.

As a father and American citizen, I want these special and sacred forests that make our country unique to be enjoyed by my kids, grandkids and all future generations.

I strongly urge the Forest Service to select Alternative 1, the "no-action" alternative.

Please do the right thing and preserve this habitat.

Thank you,

Joel Shafor
