Title:

Comments:

Sirs: Please reconsider the closing of these off-road trails and FS roads. I and my riding friends use several of these trails at least bi-weekly. We buy gas locally and also meals and supplies from local vendors. The areas we use are maintained and do not suffer due to our use. We are respectful to locals, and always slow for other riders, bikers and hikers. They provide great family recreation opportunities and should be left available to the public.
