Alternative 1 [ldquo]no action[rdquo]

I oppose any changes to the Roadless Rule affecting Alaska[rsquo]s Tongass National Forest. I believe the benefits of development to the local community are being far overstated and are outweighed by the degradation of old growth forests acting as carbon sinks. Salmon populations in Bristol Bay would also suffer which is a large portion of food and income for locals. I opt for the [ldquo]no action[rdquo] alternative 1.

Best regards,

Lewis Steele
