Alaska Roadless Rule/Tongass National Forest

Hello,

I'm writing to oppose the exemption of the Alaska Roadless Rule in the Tongass National Forest. Our nation was built upon natural and rugged beauty, and while we have disrespected and defiled those spaces, it is imperative that we preserve the few pieces of wilderness the U.S.A. has left. There are so few places in our country like the Tongass National Forest. They must remain untouched and therefore special. Thank you for your consideration.
