No Roads

Please do not add roads to this beautiful forest, where some of the only remaining old growth trees are. It is a shame to cut down trees that are thousands of years old for our personal use.

The forest is beautiful and is necessary for good salmon harvests and as homes for the animals that all come to Alaska to see.

Tourism is a much larger money maker than logging. I have lived in Alaska and it is the most beautiful majestic place I have ever lived. Lets keep it that way.

Ann Birkner

Hunt, Texas
