ROADLESS RULE

I OPPOSE THE ROADLESS RULE FOR ALL FOREST SERVICE LAND.

I have always opposed the roadless rule put in by President Clinton for forest service land especially in Alaska.

Our hemlock forests are rotting away and need to be replaced with spruce forests by logging the hemlock forest and replanting sika spruce trees.

Roads are needed to accomplish this needed change.

The no road rule makes good forest multiple use management impossible and we need to get rid of this outrageous rule now!
