No action alternative in Alaska Roadless Rule

Dear Secretary Perdue and Chief Christensen,

I am writing to urge you to select the no action alternative for Alaska and the Roadless Rule to protect the Old Growth in the Tongass National Forest. This protection of wild areas was fought for a established to protect what little old growth temperate rain forest is left not just in Alaska but in the world, to honor and protect Native Alaskans traditional way of life and deep connection to the land. Once lost, this precious ecosystem can never be replaced. At a time on our planet when climate change and mass extinction threaten our children's present and future, to choose to open the way for destruction of this forest would be inexcusable. Please make the choice to protect this wild place for all future generations.

Thank you,

Cindy Breunig
