U.S. Forest Service Alaska Roadless Rule Committee:

I have lived in or visited most of the U.S. the Tongass national forest is the most beautiful part of this country. Roads would not only destroy the beautiful area, but impact an extremely diverse ecosystem.

The Roadless Rule has been instrumental in conserving the Chugach and Tongass National Forest and in supporting their associated fish and wildlife-based industries for more than 20 years. Please uphold the Rule's protections for important fish and wildlife areas, including the Tongass 77, by selecting the 'no action' alternative. Roadless areas are an important of Alaska's culture and we must protect them and their spawning streams. Please do not roll back roadless area protections for habitat that our irreplaceable fish and wildlife populations need to survive.

Sincerely,

Jonathan Jackson
