Comments:

The foothills Landscape Project is a sell out of one of the finest areas in the country. This is a very bad idea and will have dire consequences for generations to come. Decommissioning trails and dispersing camping areas so that big businesses can reap a profit by raping our land is a travesty to the mission of the US Forest Service. My family and I spend time in these beautiful areas of which you want to give away for profit. That's not your mission and it does not benefit the public in any way.

Also, the plan's release during the holidays with such a short comment period, tells me that forces are at work that are fundamentally against your mission. Please stop this insane destruction of our heritage in the name of private greed.

Sincerely,

Vicky Alt and Family
