Comments:

Please extend the date of comment. I am one of many hearing about this project on the last day of comment via the Chattanooga Times Free Press in the editorial section. It impacts all of us in this community and given the holiday season and news cycle, it has not received adequate coverage and allowed many who would like to engage, to be in the dark about all that this project will positively and negatively impact. My request is, again, to extend the date for inquiry and comment for this major project on my lands. Thank-you.
