Last name: Anon

Organization:

Title:

Comments:

It is important that you follow due process regarding projects such as the Foothills Landscape Project. Failure to do so is an abandonment of your duty. If we don't operate with due process, we are no better than authoritative regimes around the globe. Upholding our American values starts in our own backyard. Our local citizens can work together to find common ground and achieve progress in a thoughtful, considerate manner. Let everyone's voice be heard and address the key issues and challenges in a way that we can all feel good about. I'm a proud Georgian. Let our actions set the right example for other communities to follow.

Regards,

Jamie
