HC5378

U.S. Forest Service Alaska Roadless Rule Committee:

I can't believe people seem to be unconscious about environmental issues. Why can't we learn from past mistakes. Please stop destroying what so many have been trying to protect for so many years.

The Roadless Rule has been instrumental in conserving the Chugach and Tongass National Forest and in supporting their associated fish and wildlife-based industries for more than 20 years. Please uphold the Rule's protections for important fish and wildlife areas, including the Tongass 77, by selecting the 'no action' alternative. Roadless areas are an important source of food, jobs, and income through commercial, subsistence, and recreational fishing. Salmon are part of Alaska's culture and we must protect them and their spawning streams. Please do not roll back roadless area protections for habitat that our irreplaceable fish and wildlife populations need to survive.

Sincerely,

Bryant Robinson

Culpeper, VA 22701
