Foothills project

Please please please do not move forward with the foothills project. My family are deeply rooted in the proposed area and have grown up exploring and enjoying this forest. Even though many of us pursued careers in Atlanta we own property near Helen and consider this a safe haven to escape from all of the development in the Atlanta area. My heart cries that my children and grandchildren may not be able to "hear the calling" of the mountains as I did. We do not need more development. We need more clean natural places to escape to. Please do not let this go through.

John Shiver RN, BSN, CEN, EMT-P
