Comments:

Plan revision is not rocket science. You are tasked to do the best LONG TERM management for the PUBLIC lands under your jurisdiction, not to toad out to right-wing jesus-jumping wingnuts who want MY land to be their own short-term use gold mine (see Thompson Creek). This process is dragging out way too long. Do NOT bend over to extremist pressure whose only motive is private gain. I suggest using the Moonies for wolf bait. Do not make this a political process, it is a long term land use process.
