Comments:

I support this project! As a biker, father, and small-business owner I see this as a great asset to our community. This trail would allow me to take my kids riding on more trails that fit their abilities and would keep them off a gravel road, that sometimes has drivers with unsafe driving habits. The GWNF is a wonderful place to explore and more trails will only make it a better place to be. Thank you for your help in adding more recreation options.
