Hi, I would like to voice my support for the trail building projects in the GW national forest. If you could, I would also like to suggest that one day a week or so class 1 eMTB's be allowed to play on the trails. You can even charge them some sort of pass if you want, I'd pay for sure.

The trails are a great economic benefit to the area that doesn't involve polluting everything, and the vast majority of bicyclists pick up litter instead of throwing it out their truck windows like morons often do.

Thank you for all your work in these matters, and I support the national parks and forests regardless of what you decide. Also, let me ride my eMTB sometimes. Thanks!
