Comments:

I would like to see more relocations of "legacy" trails and/or new trail construction along the Tillman Road Corridor.

There is a need for more trails and better trail connectivity in the North River District of the George Washington National Forest and this project will help with connectivity.

The Narrowback Mountain trail system is crucial for intermediate and beginner trail visitors and it holds a unique position in the overall Narrowback trail system compared to the many other more challenging trails in the Forest. thanks for considering my opinions!
