Please build this trail! I've ridden the one that it will replace many times. It is eroding and really no fun at all. The new trail will be a true joy for hikers and bikers, with a smart connection right at the new parking lot. I ride the Sherando trails in Augusta as I live close by there, but the beauty and trail flow on Narrowback, keeps me coming back. Everyone I bring loves this area. World class! Let's keep it rolling with a better connector to the ridgeline!

Thanks,
