Title:

Comments:

I have reviewed the Targhee master plan expansion plans in detail. I am familiar with the terrain and habitat of the area. I've been recreating this area since 1991. I am an avid snowboarder and mountain biker. I've witnessed grand Targhee's commitment to being a good steward of the environment and feel confident that the expansion plans would protect the environment and allow best use of the land for the most number of citizens.
