Re: Tillman Trails Improvement Project (#58134)

While we don't live in the local area, our family visits the North River District once or twice a year for a weekend of recreation. The trails are the highlight and we often make a point to visit Narrowback Mountain. Closer to access points and to be honest a bit easier - Narrowback is a nice jumping off point or coda at the beginning or end of a longer trail circuit. We've appreciated the improvements made by USFS and your partners over the past decade or so on Narrowback (and other trails in the District). We excited to read you may not be finished.

Heartily support to proposed improvements!

Thanks for the opportunity to comment --Dan
