Comments:

I live in the northeast and have traveled several times to the GWNF to ride mountain bikes, hike, camp and visit the attractions in the area. Narrowback trail is one the the best trails I have ever ridden. The planning and execution that went into building that trail must have been tremendous. It really is a testament to the Shenandoah Valley Bike Coalition and their dedication to building quality trails that complement and coexist well with the surrounding habitat. I support the SVBC's proposed plan to expand the trail system on Narrowback Mountain.

Thank you
