I am writing in favor of the Tillman Trails Connectivity Project #58134. I believe this will be a wonderful opportunity to connect some of our favorite trails. It would be great to have more beginner/intermediate trails for young kids and beginner outdoor enthusiasts. It would also be a benefit to connect the wolf parking lot to narrowback so that people do not have to ride, run, and hike on the Tillman gravel road, which can be dangerous with the vehicle traffic.
