Comments:

The Narrowback Mountain trail is the definition of mountain biking for me. It is what keeps me coming back to the George Washington National forest. This new proposed section would make it so much more accessible. I have had a hard time trying to figure out how to bike on Narrowback Mountain. I can only imagine people from out of state or new to the area having the same problem. Adding the proposed trail to Narrowback will only heighten this area's place on the mountain biking and outdoors spotlight. Volunteers will be ready. This is a great opportunity to make an amazing trail even more special. Thank you for your time!
