Comments:

Hello: Thanks for considering additional mountain bike trails around Tillman road. As an older person, when I was young, there were lots of trails I rode my motorcycle on and I miss them. The forest service closed them one by one. The bike trails are fun however some are too aggressive for me. More trails with an easier slope would be appreciated.

On another point, why couldn't some trails be designated for motorcycles? It's not fair that only bikes can run the trails. I don't have the strength to ride these due to my age, but could ride them on a motorcycle. It's time to open trails up for everyone, not just the people with advanced physical fitness.

Thank you for your consideration.
