Comments:

To whom it may concern,

I am requesting an extension on the comment period for the Stibnite Gold Project to 120 days. As these times are unprecedented, and undoubtedly COVID-19 has interfered with communities being able to fully engage in this process, it is only fair that the comment period is extended 75 days, to 120 days in total.

I am an environmental educator, professional kayaker, and concerned citizen. It is important for us to fully get the opportunity to engage in this process, and fight for our important places. This is a complex process and requires voluminous environmental reviews.

Thank you, and I am assured that you will do the right thing, and not curtail or diminish public engagement.

Sincerely,

Anna Wagner
