Comments:

I live in, work in, and hike in the RRG area and am a Life long resident. Ive never seen the Gorge grow faster than it has in the last 3 years. As its popularity and advertising grows, it will only continue to gain more and more traffic. If this resort is passed, it will grow that much more. These roads here can not take the traffic thats coming without improvements and upgrades. I as many others Love the forest and everything nature offers here, but growth is inevitable and that requires much maintenance.
