Comments:

As a member of many Environmental Organizations-I want to submit an objection to the proposed plan as it currently stands for this amazing area. I would like to see Alternative C proposed-which is what the Gallatin Forest Protection Group has submitted. Please include the protections of South Cottonwood, Bozeman Creek, Cowboy Heaven, Sheep Mountain and Hyalite Park regions. As you know-due to man's intrusive practices, climate change, and other disruptions man has caused-we are experiencing a serious deterioration of ecosystems and the loss of species, biodiversity within our country and the planet. We MUST take ALL these factors into account when proposing any plan and the species, flora, fauna MUST be PROTECTED and MUST be PRIORITY over ANY human intrusive, or evasive activity-that would include ranching! PLEASE PROTECT THESE AREAS!!! PEOPLE WANT OUR NATIONAL TREASURES KEPT INTACT and CONSERVED for FUTURE GENERATIONS!!!! We CANNOT survive on a poisoned, fractured planet!! I would write more-but I have to get ready for work now! Thank-YOU!!
