Comments:

I believe the coaster would negatively alter the appeal of the area.

My biggest concern is automobile traffic people driving up to do a thing that they buy a ticket for and drive down. The area is attractive as is !

My suggestions make the tram more accessible as a means of transportation to access the mountain area and get ticket sales from riders there.

make the road up a toll road at some point? and run a bus ( same idea as selling tickets on a coaster ) I guess you would need parking at the bottom somewhere ( similar to how they operate in Bandalier ) .

I don't know who is behind all the nice trail work just south of Tijeras in the Manzanita mountain trail system but the ski area trail system could use some updating.

I'm sure a lot of people are commenting about downhill mountain bike options which I think is better - but try to not make the road too crowded with cars, keep expanding hiking trails, if there is a place to put a campground or two that would be an option.

thank you for your consideration
