My views of the proposed ski area expansion at Grand Targhee are: please don't allow it. Whilst I'm a skier and like to ski at Grand Targhee, my first thoughts are for all the natural beauty and wildlife that will be disrupted.

It's time to put our own desires second. With all the general harms that humans are causing on the planet, each individual denial of such permits goes a long way to protecting the whole.

The primary beneficiaries of this are the developers, their investors, and skiers - it's all a very 'me' centered proposal - what does the wildlife and its habitat gain from this?

Finally, such a proposal will inevitably result in the raising of real-estate prices in Teton Valley - one of the few places where it's still relatively affordable for locals. So the skiers who benefit from this are more likely to be those with wealth. Thank you.
