Comments:

I am opposed to any and all expansion plans to Grand Targhee Resort. I have worked at the resort for 10 years and lived in the community for 10 years. The resort is great just the way it is. This expansion will hurt the watershed, the habitat, and the scenery in the North Fork of Teton Creek. It will lead to more sediment in the water. It will cause higher skier traffic leading to more pollution and degradation to our national environment. We already have a larger ski area in the area at Jackson Hole. Targhee needs to stay a small family resort it has been just fine that way. If people want a bigger resort there are many in Colorado and California. The economic benefits do not outweigh the damage this will do to our natural environment and small town atmosphere. Please do not do this. This is a travesty. We are one of the last small family resorts with a pristine atmosphere that is left. Please make the right decision and do not go forward with this expansion
