First name: Cathy

Last name: Dahms

Organization: None

Title:

Comments:

With climate change, the ski area will have a shorter winter, so having an additional source of income is important to the viability of the business. I do not envision any major deleterious effects for this project and I am supportive of the Coaster. Also, it may get young people out in the outdoors instead of inside with their electronic devices. This will get them more appreciative of the outdoors and be more willing to protect it.
