Comments:

To Whom It May Concern,

As a backcountry skier, I am opposed to ski resort expansion into South Bowl, Teton Canyon, or Mono Trees as it will disrupt backcountry ski options and local wildlife. Backcountry skiing is a unique experience of solitude, fortitude, the feeling of freedom, and observing nature. Commercializing this area will not only destroy this experience, it will also have an environmental impact that will be detrimental to the area. Please protect the Jedediah Smith Wilderness area.

Sincerely,

Ashley Potter
