Comments:

i am against logging, new roads, chemical attacks on the forest, burning of the forest, and assaults on all wildlife by all those attacks on their home. i want full protection for all animal species in this national land. this is national land owned by 330,000,000 and it needs to be managed for the benefit of all americans not just for locals and not to be exploited by pals of politicians who pay big campaign dollars to get what they want from our national lands. we want protection and respect for nature to be foremost.
