Comments:

I am interested in the objection(s) because the proposed action includes lands that could be recommended to Congress for inclusion in the National Wilderness Preservation System and the identification of rivers eligible for inclusion in the National Wild and Scenic Rivers System which I feel should be the maximum possible to continue to maintain healthy wildlife and their habitat especially in light of the horrific west coast fires and this administration's continued attacks on all our lands.

I have previously commented during the planning process (scoping, draft EIS, and/or final EIS).

Thank you, Jennifer Valentine
