Comments:

I am new to the valley as a resident but have skied GTR for many years. We brought our family to the resort and loved that the resort was laid back, less busy and less expensive than other resorts. But it had fantastic snow! I think the resort should take care/improve what they have. Build the Peaked lift which would add terrain. Improve parking, current facilities and transportation.

I oppose the current plans at this time because I am worried about Wildlife, increased traffic(Ski Hill, Stateline and Hwy 33) noise of construction, disruption of Teton canyon, dark skies and water quality.

At this time I oppose adding terrain in Teton Canyon, any night skiing and mountain top restaurants.

I think GTR can stay competitive by improving what they have. I think smaller, family friendly resorts are still a draw.
