Comments:

Dear Mr. Pence,

I got error messages trying to submit my comments against Grand Targhee expansion from multiple web addresses. Please accept these comments and put me on the mailing list for updates during the process.

Please do not allow boundary expansion. The value of the public lands surrounding the current boundary is priceless for wildlife, hydrologic systems, recreation and traditional agricultural uses.

Thank you for your attention. Further, please extend the comment period again due to the malfunction of the links.
