Comments:

I want Grand Targhee Resort to stay a viable option for skiing for valley residents and tourists, as well. I appreciate that some expansion within current boundaries is necessary including new lifts and restaurants. There are 2 areas that I want to comment on:

1. I do not support the expansion of Grand Targhee Resort beyond its current boundaries. I think it is very important to protect the wildlife habitat especially considering the boundary expansion includes south facing slopes that are critical for wildlife during winter.

2. With regards to the proposed in-boundary expansion, I support this as long as Grand Targhee Resort practices will protect our dark skies.

Thank you for giving me the opportunity to share my views.
