Comments:

E Bikes would spook horses and mules. I hit trails to escape the noise and pollutions of city life, also this is Montana not Colorado. Keeping our wild places as wild as possible for future generations is something I have always promoted. Please don't do this. We have trails elsewhere they can have motorized vehicles. In Red Lodge over the 4th of July it was ridiculous, all I heard was dirt bikes and atvs, we need places where you can hear nature.
