Comments:

I am truly sadden by this decision. As an equestrian, hiker, and bike rider I oppose this decision. There are numerous places that e-bikes/bikes have access. When I ride my horse or hike the tranquil forest lands where e-bikes are not allowed I am almost assured that an e-biker/bike rider will not be flying around a corner or up or down a steep grade that I am using. This is a dangerous combination. Several times I have been nearly taken out by bike riders. So far it has been pure luck I have not been hurt or worse. This can be deadly. Please reconsider your decision.
