Comments:

I am AGAINST allowing e bikes on any forest svc. or blm trails. E bikes have a motor, plain and simple. Mountain bikes have already ruined some areas of the backcountry by riders using game trails as mountain bike trails. You wonder where all the elk went??? Too many people accessing areas that never had people, except for the few hikers or horseback people. Now it's bikes everywhere. If you allow e bikes, this will only make things worse for the wildlife and ecosystem as a whole.
