Comments:

I oppose the Midas Gold Stibnite project.

I am a second generation Idahoan and have spent my life recreating on Idaho's public lands and wilderness.

An open pit gold mine is unacceptable and the proposed restoration and reclamation proposals are inadequate as is the attention on the wide-reaching affects that this project will have on tourism and the local economy in Valley County and surrounding areas. The vast majority of Idahoans participate in outdoor recreation and many rely heavily on the tourism industry for their main source of income.

I strongly oppose this project and implore you to extend the public comment period on this project.
