Comments:

The proposed actions in Georgia are most welcome and very needed. I wholeheartedly endorse them. The Conasauga Ranger District in particular is in desperate need of trails, roads, and recreational facilities/development. There are dilapidated campgrounds and trails through the Conasauga RD and it seems the area has been mostly abandoned to occasional horseback riders, hunters, and dubious publicly funded shooting ranges. Roads in the Blue Ridge Mountains area of Northeast GA have pullouts/viewpoints which are overgrown and don't offer the views that they are supposed to. More campgrounds are needed throughout the Chattahoochee-Oconee National Forest.
