Comments:

As a long time rider a major financial contributor to the North Ga Mountain Bike Association we are in need of more beginner friendly trails in the Blue Ridge area. The activity of mountain biking has positive effects physically and mentally. Creating opportunities for young and new riders are necessary to help provide space for people to get out enjoy the outdoors. I've made a sizeable contribution to the Fritkoff project and it will have positive impact for the community. Please consider making this a top priority. Thank you!
