Comments:

Grindstone campground is in bad need for repairs. Also the sites need to be made bigger and wider to back into to accommodate the bigger campers of today. It's extremely hard to back into some of the site's because of the width of the site . It would help if some of the big rocks and the site number posts would be moved to make it wider. Also the bathrooms need upgraded. More drive up sites are needed instead of so many reserved sites. The dump station is hard to get into with these longer campers . It needs to be made wider. Doesn't need as many tent sites but more camper sites with water and electric.

Stony Fork needs more water and electric sites. When we are at both campgrounds most of the tent sites sit empty while people with campers have to be turned away or pay for a small site with nothing.
