Comment Nov 2020 on proposed GAOA spending

First we must work on the deferred maintenance affecting recreational use of the forest

This means maintaining access roads to recreational areas, trail work, and campground rehabilitation at Bee Rock and Castlerock campgrounds.

But there are items proposed that are just not appropriate for this GAOA funding

So DO NOT spend money on logging roads. Do not spend money in the Jell-O area on combined use roads.

Do not spend any money on shelterwood cuts or roadside cuts. Do not spend any GAOA funds on studies. Do not spend any GAOA funds on maintenance of offices.
