Comments:

Hello. I lived in Madison County for 3 years and visited Max Patch regularly. I now live in SC and in returning to visit Max Patch during the pandemic, I was shocked by the trash, human waste, and excessive traffic.

I see many projects in NC on the list that rehab or build new toilets and parking and I ask myself, "What about Max Patch?". If the answer is these projects were previously defined, then I blame the Forest Service for not defining a much-needed project. This project is sorely needed and must become a high priority.

I ask you to strongly consider adding Max Patch projects to your list.

sincerely,

Sheila Garrick
